## INVOICE

Page 1 / 2

1

Invoice date 05.04.2022  
Invoice number 706370631  
Due date 19.04.2022  
Customer number 100297260  
Payment terms 14 days net  
Remark time 7 days  
VAT-number  
Buyer's purchase order  
Contract  
Buyer's reference  
Account reference

Interest on late payment in accordance with the Interest Act.  
Payment notifications incur 5 EUR notification fee.

1. At the top of the invoice, you will find the invoice number, due date and customer number.

2. Here, you can find the site address.

3. For regular services, the time period during which the services were provided is displayed. Below additional fees (such as loose waste in the example), the date that the service was provided is displayed.

4. If the price of the service changes during the invoicing period, there will be two separate lines that show the price. In the example, the price of biowaste container emptying has been changed as of 1 February 2022.

5. The most common additional fees are:

- **Visit without emptying:**

When the container could not be emptied, for example, due to a vehicle parked in front of the waste container or due to a container that was too heavy

- **Transport and treatment fees of loose waste:**

For example, any additional waste left outside the container will be charged separately according to the current regional price list.

- **Invoicing service fee:**

We charge €2.65 per paper invoice (incl. VAT). There are no invoicing service fees for e-invoices. You can order e-invoicing through your own online bank. The ordering instructions can be found in the bank transfer section of the invoice.

6. Here, you can find the payment details of the invoice: always use the reference number when paying invoices.

The payment will be cleared for the recipient in accordance with the General terms for payment transactions and only on the basis of the account number given by the payer.

## How do I calculate the cost of a single emptying?

The emptying price consists of the service (emptying the container) and the waste fraction. You can calculate the price of one emptying by adding together the individual prices without taxes and multiplying the sum by the amount of tax (1.24). On the example invoice, the emptying price for mixed waste is  $(7.50+3.85) \times 1.24 = 14.07$

## My emptying frequency is once a month on Thursdays. Why have I been charged two emptying visits for one month?

The emptying frequencies are reported in weeks, not months. Therefore, your emptying frequency is every four weeks. For example, there were five Thursdays in March 2022, so the emptying visits could have taken place on 3 and 31 March.

You can find more information at [lt.fi/laskutus](http://lt.fi/laskutus). If you would prefer service by phone, please call 010 636 7000 (business customers) or 010 636 8000 (private customers). The service is available on weekdays from 7 a.m. to 5 p.m. You can find the call rates at [lt.fi/puheluhinnat](http://lt.fi/puheluhinnat)
